Europe seems to bear a fascination for all those living outside the Old Continent. With it's origin and history, past and future, grown culture, marvelous cities and beautiful sceneries.

Hyde Park resident German Photo Artist, Uta Rietmann, features a one month photo exhibition to show some of her views of the Old Continent. A small selection of her series of black & white images, titled 'METROPOLIS' , will be exhibited at Awakenings Coffee & Tea at Hyde Park Square, from July 1 to August 4, 2007.

Uta Rietmann was born and raised in Germany and currently lives in Cincinnati / Hyde Park. Her interest in photography started a decade ago, with capturing the evolution of her two sweet cats Tiger & Panther. Through years of practical experience as an intense hobby, she carved her style towards Black & White. With her move to Cincinnati three years ago, she has devoted her passion for photography into a profession.

"I seek to share my impressions through the medium of photography in much the same way writers, painters, and musicians seek to evoke feelings and reactions through their media. I am not a planner that travels to famous landmarks to take the perfect picture. I just travel through the world with my eyes open to capture what I see as the miracle of mother's nature. Cities, animals, plants, or the four elements themselves, I capture what is special to me and bring my impressions from different continents back to you."

The Art Gallery at Awakenings Coffee & Tea is located at Hyde Park Square, 2734 Erie Ave., Cincinnati, OH 45208. Hours: Mon-Thurs 6:30am to 10pm, Fri-Sat 6:30am to Midnight, Sun 7am -11pm.
